SUMMARY

Motivated and detail-oriented Backend Developer with a strong foundation in ASP.NET Core, SQL, and full-stack web development. Currently pursuing a Bachelor's degree in Civil Engineering at Georgian Technical University while actively developing real-world web applications. Combines technical knowledge, problem-solving skills, and teamwork experience from both academic and professional environments.

EDUCATION

Georgian Technical University (GTU) — Bachelor's Degree, Civil Engineering (2nd Year Student)

IT Step Academy — 2-Year Full-Stack Web Development Program

Courses completed in HTML, CSS, JavaScript, ASP.NET Core (MVC & API), and MS SQL.

International 3-Month Web Development Course — Completed with certification after building a final project website.

EXPERIENCE

Technical Assistant — Vake District Election Office (02 Precinct)

Assisted in managing the technical setup and maintenance of election systems. Ensured reliable data handling and supported on-site voting equipment operations.

PROJECTS

[Colloseum Gym Website](https://Colloseum.online) — Colloseum.online

Developed a fully functional gym website using ASP.NET Core MVC and SQL Server for a real fitness center.

IT Step Academy Diploma Projects

Built multiple web applications for diploma defenses and coursework, demonstrating both front-end (HTML, CSS, JS) and back-end (ASP.NET Core) skills.

International Course Final Project

Developed and deployed a website as part of an international online course; received a certificate for successful completion.
